### Dimensions:

size: 7.5" w x 5.25" h x 5.75" d  
weight: 3 lbs.

### UPC:

- Walnut – 710244272278
- Black – 710244272223

## CR221 Solo

Say hello to the Solo, an addition to Crosley's high-end audio products. The Solo is a little different than anything that you have ever seen, or heard, before. Start with the clean, "new-stalgitic" look. Taking design cues from modern art, the corners are gently rounded to create the "Solo" effect. The true magic of this little wonder lies in its ability to produce the cleanest, most consistent sound of any radio on the market. Crosley accomplishes this with our very own AroundSound™ technology, a proprietary design philosophy that eliminates "hot spots" in sound reproduction. Regardless of its placement in a room, the Solo delivers a measurable difference in acoustic consistency – more than three times as its nearest competitor. To the consumer, this means a more pleasurable listening experience, creating an enveloping effect that wraps the listener in a comfortable cocoon of pleasant, warm tone. Enjoy the precise AM/FM tuner, or check out your "portable" tunes with our portable audio ready feature. Just connect any portable audio device with included hardware and prepare yourself for a unique listening experience.
