

Cast Iron Drop-In Tub Installation Guide

Before You Start:

Carefully unpack and inspect all items for damages and ensure that the required parts were shipped complete. If you find damaged parts do not install contact Customer Service immediately.

We recommend using a professional plumbing installer if you are unfamiliar with vintage style bathroom fixtures and plumbing. Vintage Tub & Bath will not be responsible for any damage to the floor, walls, plumbing, or personal injury during installation. Please review all local plumbing and building codes to be sure your purchase is code compliant for your area.

Note: Due to the manufacturing process each tub will vary slightly dimensionally.

TUB INSTALLATION:

1. Screw the leveling screw and lock nut halfway through the adjustable foot. Take the retaining screw and put through the hole at the top of the adjustable foot, install nut and washer onto the retaining screw and secure.
Take the assembled adjustable foot and insert into the foot support opening on the tub. Once inserted secure and tighten all bolts to ensure tub stability.
2. Temporarily set the tub onto the pre-constructed frame support opening.
To locate the new drain line floor rough-in install the drain overflow elbow connection (not included) onto the tub, drop a plumb line from the centerline of the overflow outlet down to the drain floor location and mark out the centerline on the floor. This will determine your drain line rough-in floor location. Remove tub and prepare all rough plumbing accordingly.

Note: Make sure to mark out all leveling leg positions on the floor to ensure the rough-in drain location is lined up correctly when reinstalling.

3. Onto the framing support opening carefully set in place the tub in its finale position with drain assembly (not included) installed, complete all piping as required. Level and adjust accordingly.
4. Complete the tub installation by applying a bead of silicone sealant around the tub rim where it meets the finished surface. Wipe away all excess sealant with a damp cloth.

CAUTION:
