

Bathtub Widespread Faucet Installation Guide

Technical Parameters:

Recommended Water Pressure: 30-70 PSI

• Recommended Hot Water Temperature: 100 °F - 120°F

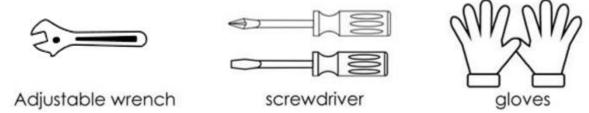

• Highest Hot Water Temperature: 170°F

• Handle Maximum Hole Diameter: 1-3/8" (35 mm)

• Spout Handle Maximum Hole Diameter: 1½"∅ hole (38 mm)

Maximum Thickness: 1-3/16" (30 mm)

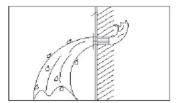

Required Tools:

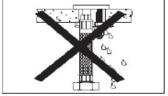

Note: The factory installed cartridge in the main valve bodies have been tested and adjusted. Do not remove.

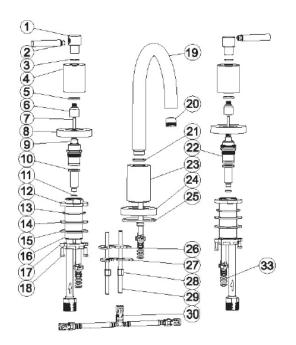

Keep the supply pipes unblocked

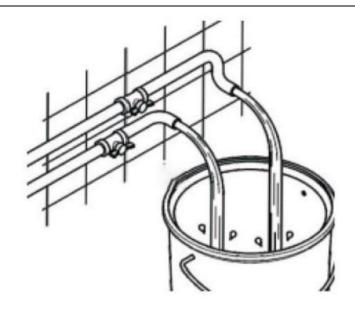

No leakage in the connection

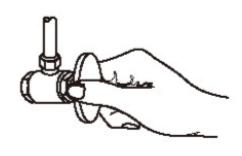

Parts List:

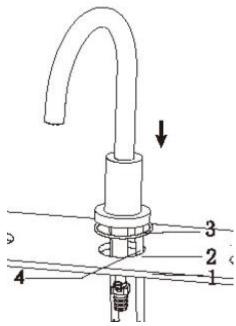

| 35 | American pop-up |
|-----|--------------------|
| 34 | Plastic spanner |
| 33 | O-ring |
| 32 | Lift rod |
| 31 | Cap |
| 30 | Нове |
| 29 | Thread rod |
| 28 | Tightening Nut |
| 27 | C metal gasket |
| 26 | C rubber gasket |
| 25 | O-ring |
| 24 | Base |
| 23 | Body |
| 22 | % Cartridge(Cold) |
| 21 | O-ring |
| 20 | Aerator guits |
| 19 | Spout |
| 18 | M4 Screw |
| 17 | Tightening Nut |
| 16 | Valve body |
| 15 | Rubbergasket |
| 14 | Gasket |
| 13 | O-ring |
| 12 | Nut |
| 11 | O-ring |
| 10 | Tube |
| 9 | 1/4 Certridge(Hot) |
| 8 | Base |
| 7 | M4 Screw |
| 6 | Cartridge sleeve |
| 5 | Gasket |
| 4 | Handle bese |
| 3 | Gasket |
| 2 | Handle rod |
| 1 | Handle body |
| TRM | DESCRIPTION |

 Please flush the water pipe for at least 2 mins before installation to ensure that there are no impurities. Hot and Cold Water Suppliers should come from an angle outward

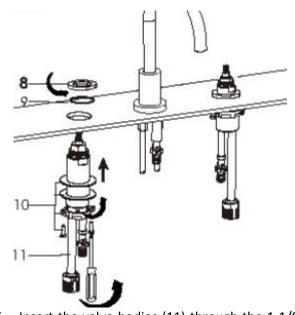

2. Turn off the water supply lines. Clean all dirt and particles. If you are replacing an existing faucet, remove the faucet from the sink and clean the sink surface thoroughly.

3. Drill a 1-1/2" hole (2) in sink top (1). Install the fastening bolts (4) and tighten. Install O-Ring (3) into groove on base plate and insert faucet through the hole (2).

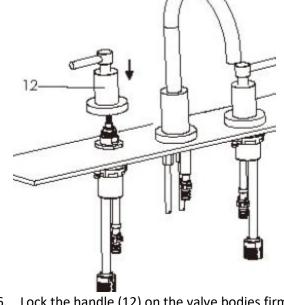

4. Align the faucet to the right position, install the rubber washer (5) and metal washer (6) onto fastening bolts and tighten with nuts (7)

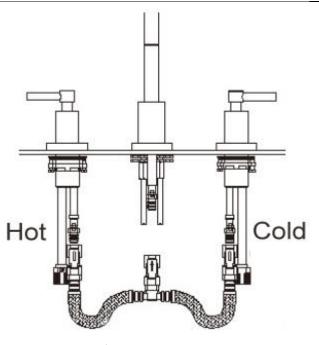

5. Insert the valve bodies (11) through the 1-1/8 hole from underneath, then install the O-ring (9) and the locknut (8) from above and tighten.

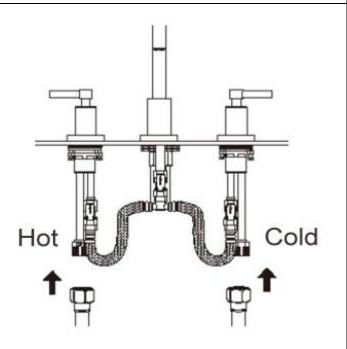

(Typical for 2)

6. Lock the handle (12) on the valve bodies firmly. (Typical for 2)

7. Connect the flexible hoses to the valve bodies. Left hose is for hot water and right is for cold.

8. Connect the valve bodies with the valve outlest with flexible hoses.

Operation and Maintenance

Modern bathroom faucets, kitchen faucet, and shower products are made of different materials to meet the design and functionality of the market

- Clean with a soft cloth or a sponge and soapy water.
- Rinse thoroughly and wipe dry; drying the fixture immediately after use helps prevent lime deposits from forming.
- To protect the finish, do not use abrasive agents, polish abrasives or acid-containing harsh cleaners.
